The following is an examiner's statement of reasons for allowance: Applicants' arguments found on pages 13 – 23 of the amendment filed on January 21, 2005 were considered persuasive in overcoming the remaining rejections. Additionally, the specification amendatory changes to para [0013] filed concurrent with the amendment were admitted as not involving new matter since they merely state for purposes of clarification the art-defined meanings for 'wireless' and 'flexible circuit' versus 'ribbon cable' which have been concurrently made of record via the definitions provided with the Information Disclosure Statement filed with the amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Jaworski Francis J. at telephone number 571-272-4738.
